

HYBRID™ series Steel Tracks with Rubber Pads

McLaren **HYBRID™** Series Steel Tracks with Bolt-On Rubber Pads combine the strength of steel with the advantages of rubber. Designed to handle the most extreme ground conditions. They are virtually unbreakable and last twice as long as most rubber tracks. The replaceable rubber pads ensure excellent ground protection. Most importantly, HYBRID tracks are very easy to install on a rubber track machine without changing any undercarriage parts.

- Virtually unbreakable
- Replaceable rubber pads
- No downtime from broken tracks
- Excellent ground protection
- The strength of steel with the advantages of rubber
- New and improved design of the rubber pads
- Lasts twice as long as regular rubber tracks
- Designed to handle extreme ground conditions

Designed to handle the most extreme ground conditions!

Get product information on any item in the McLaren catalog. Find detailed information on each product, **compare the features** of different solutions, find technical specs, and browse image galleries to see the products in detail.

Watch product videos online to see McLaren tires and tracks in action. You will find a product video on most product pages, as well as on the McLaren TV Player directly on the home page. The saying goes "a picture is worth 1,000 words", and we believe a video is worth 1,000 pictures.

Request a quote online from anywhere, at any time, day or night. Visit our site and click on the "Request a Quote" link on the home page. You will also see big red "quote request" buttons throughout the site and on most product information pages.

Read customer testimonials kindly provided by construction contractors and equipment dealers from various regions of the country. This is some solid evidence of the benefits of being a McLaren customer.

Foreign language options are also available. When you need McLaren product information in a language other than English, simply click on the "Region" tab in the site header. You can then browse our regional sites, containing product information in all major languages.

Request customer service assistance directly from the home page. We are committed to your complete satisfaction as a McLaren customer. Click on the link "How may we help you?" to reach a customer service representative, who can address any issues that you may have.
